Telephone interface

direct connection of an analogue tele-satellite receiver etc. connects the audio line to the amplifier. the system. After the announcement is completed and the calling telephone handset is replaced, the module disconnects the audio line and the system is restored to normal operation. This feature allows for the use of any telephone for broadcasting announcements, providing high flexibility at very low cost.

Select 2 plug-in modules (Slot A+B) according to your requirements:

You require	Suitable basic model
Break signal, Chime, Telephone Ring Signal,	MP3 Module, GM-1219
Siren, Evacuation Messages, Standard Messages	 Storage of up to 8 MP3 files with a total length
	of 14 minutes
	- 1 internal trigger (Chime)
	 2 push buttons at front for manual trigger
	 5 potential-free inputs for external trigger
Background Music (CD, USB-Stick, SD-Card)	Digital CD-USB-SD-Player-Modul, GM-1224
(CD-R, CD-RW, MP3 and WMA)	Pitch-Control
	 Front panel operation or remote-control
Background Music (FM Tuner)	Digital UKW-Tuner Modul, GM-1225
	 Display of frequency or station number
	Frequency range: 87.5–108 MHz
Announcements from any telephone	Telephone Interface Module, GM-1218
	 For direct connection of the system to an analogue
	telephone line for announcements from any telephone
2 additional AUX inputs	AUX Input Module, GM-1231
(only possible, if no modules in slots A+B)	2 inputs AUX add. (total = 4)
Siren	Siren Module GM-1222
	 2 electronic generated sirens
Blank panel	Blank panel, GM-1220
	 Blank panel for unused slots

Select any options according to your requirements:

You require	Add-on option
Single call in each of the 4 zones and switching	Single call, GM-1216
on/off of the background music for each zone	Consisting of digital microphone console APS-305
individually, controlled from the microphone console	and add-on electronics built-in COMPACT-S system
Priority of MIC 1 and 2 over music sources	Priority MIC 1 and 2, GM-1280
	additional programming
Chime	Chime, GM-1263
e.g. as ordinary microphone chime	add-on electr. built-in COMPACT-S providing 2 sirens
«Music on hold» providing music for	«Music on hold», GM-1252
a telephone system	Built-in balanced output for connection to a
	telephone system
Restoration of external volume controls,	External volume control restoration, GM-1264
e. g. for paging or alert	available only for zone 1 and direct output supports
	only external volume controls
Remote controlled «Power on», e.g. from	Remote «Power on», GM-1260
a main system or music box	
Priority for microphone input module GM-1230	Priority for microphone input module, GM-1272
Output for sub-system, selectable «music only»	Output for sub-system, GM-1251
or «music and paging»
